

COSTA RICA OUTWARD BOUND

Panama Expedition

Sail throughout the calm, azure blue waters of the Bocas del Toro archipelago in a catamaran. Explore vibrant coral reefs and swim with dolphins while snorkeling or SCUBA diving. Kayak through mazes of mangrove forests and rest up from all the activities by relaxing on a white, sandy beach under the shade of palms swaying to the tune of a tropical breeze. Perform a service project before leaving that will allow you the opportunity to be actively involved in preserving the islands and the culture that depends upon them.
